LETTER OF PROTEST
INADEQUATE MANIFOLD DISCHARGE CONNECTIONS

VESSEL: SONGA FALCON
TO: Whom It May Concern

PORT: ANTWERP
DATE: 17-May-25

TERMINAL: ADVARIO STOLTHAVEN-617

VOYAGE NO: 32025007-B
CARGO: NAPHTHA

Gentlemen :

The discharge manifold of the SONGA FALCON has 1 & 13 connection flanges with a diameter of 12 & 6" inches Your terminal has provided only 1 connection of 16" inches diameter. This will limit the ability of the vessel to use her full-discharge capability and will increase total cargo discharge time.

On behalf of my owners and charterers, I protest this limitation on the ability of my ship to perform at full capacity and I hold you responsible for any delays that result from this restriction.
